## Hardware and System Requirements

### Desktop computers, laptops and notebooks

Oxford Reading Buddy is accessible online, and can be accessed on a desktop computer, laptop or notebook (such as Chromebooks) with internet access. Oxford Reading Buddy requires the minimum specifications below for desktop, laptop or notebook computer access:

#### Internet speed

**Recommended:** Minimum 10 Mb per second

**Required:** Minimum Fast 3G

#### Operating system

If you are using Windows, you will require Windows 7 with Service Pack 1 or a later version of Windows.

If you are using a Mac (Apple) computer, you will require OS X 10.11 or above.

If you are using a Chromebook, you will require 1 of the 2 latest versions of Chrome OS.

### Tablets and mobile

Oxford Reading Buddy works on the tablets and mobile devices listed below.

#### iPhone

iPhone 5s (released 2013)

iPhone SE (released 2016)

iPhone 6 and higher (released 2014)

#### iPad

iPad 5th generation and higher (released 2017)

iPad mini 2 and higher (released 2013)

iPad Air and higher (released 2013)

Please ensure that you have installed iOS 11 or above on your iPad or iPhone. iOS is the operating system on your device. You can see which version you have by opening **Settings** on your device and navigating to **General > About**. The number displayed next to **Version** will tell you which operating system you have.

#### Android devices

Any Android devices with Android 4 or above installed.

For Android devices, you can view which operating system you have by opening **Settings** and navigating to **About Phone > Software Info**. The operating system will be displayed beneath the heading **Android version**.

#### Amazon Kindle Fire

Oxford Reading Buddy works on the Kindle Fire but it is not currently fully optimised for this device. Therefore, it's possible that you may not get the best user experience.

Oxford Reading Buddy books are not formatted to work on e-book readers such as Kindle and Kobo.
